

CILTHK Luncheon Seminar

Innovation and Digitalization in Railway Quality Management

16 Oct 2026 (Fri)

HKT 12:45 - 14:00

Zoom

Innovation and Digitalization in Railway Quality Management

In the era of Industry 4.0, integrating innovation and digitalization has become paramount to transforming Quality Management within the railway and public transport sectors. Under the umbrella of "Quality 4.0," modern operations leverage advanced technologies including IoT, AI, MR, etc. to optimize processes, minimize human error, and secure real-time operational visibility across the entire value chain. This webinar explores the transition from traditional quality practices to a digitalized, integrated Quality Management System (QMS). The session highlights the vital role of leadership commitment, active collaboration models and creative problem-solving methodologies in fostering an innovative culture. Participants will also gain valuable insights from real-world digital transport operations while discussing the core challenges faced during digital transformation.

Date:	16 th October 2026 (Fri)
Time:	12:45pm - 2:00pm HKT
Venue:	Online with ZOOM
Fee:	<u>Free</u> admission
CPD:	40
Medium:	Cantonese
Enrolment Deadline: 9 th October 2026 (Fri)	

Speaker Profile

■ Mr. Alan Choi | Former Senior Operations and Occupational Safety Manager | MTR Corporation Limited

Mr. Choi is a former Senior Operations and Occupational Safety Manager in MTR Corporation Ltd., with more than 20 years of experience in safety & quality management in railway and air express industry. He is responsible for a wide range of services including development & implementation support on safety & quality management systems; implementation of quality control and assessments; conducting safety & quality inspection and audits to identify improvements in management systems; and organization of integrated management system training.

Mr. Choi is a Chartered Engineer by Engineering Council (UK) and a Registered Safety Officer by Hong Kong Labour Department. He holds a Research Master's Degree (MPhil) specializing in Safety & Ergonomics from the University of Hong Kong. He also possesses a Bachelor of Engineering from the University of Hong Kong and Bachelor of Law from the University of London. He is also a System Auditor, Six Sigma (Green Belt) and Lean Leader.
