Navigating the Future: How full mission ship simulators are revolutionizing maritime education, port development & vessel traffic management

12th August 2024 (Mon)
HKT 12:45-14:00 | Zoom

The maritime industry is poised for a transformative era, driven by cutting-edge technology.

This presentation explores the groundbreaking impact of Full Mission Ship Simulators (FMSS) across three key areas: education, port development, and vessel traffic management.

We will delve into how FMSS create immersive training environments, preparing the next generation of mariners for real-world challenges. Also examine how FMSS optimize port safety and efficiency by simulating real-world scenarios, allowing for proactive planning and risk mitigation.

Finally, the talk will explore how FMSS empower vessel traffic management by enhancing navigation and risk assessment.

This state-of-the-art technology is shaping a future of unparalleled safety, skill, and efficiency in the maritime sector.

Speaker Profile

■ Basil Leung | Professor of practice in the Faculty of Business | UOW College HK

Mr. Basil Leung, a professor of practice in the Faculty of Business at UOWCHK, has been a maritime professional since 1980. He ascended from deck cadet to navigating officer, contributing to fleet management and pioneering the cutting-edge technology of the Vessel Traffic Management Services project in Asia.

As an experienced trainer in Vessel Traffic Services and Oil Spill Response, he conducted numerous courses recognized by local and international bodies, elevating marine traffic management standards and the skill of oil spill responders in HK.

Mr. Leung played a pivotal role in developing Hong Kong's first Full Mission Ship Simulator. Collaborating with colleagues, Mr. Leung transformed it into an advanced Ship Handling and Vessel Traffic Simulation Integrated Training Platform.

Actively engaging with the Hong Kong maritime industry, Mr. Leung participated in various simulation projects aimed at developing port infrastructure and enhancing maritime training, contributing significantly to sector growth.
